Stay Connected with APC

Whether you're at home, at the office, or on-the-go, electronics are your connection to the world. You surf the web from home, put in extra hours at work, and often take your mobile office on the road, in the air, or overseas. Imagine what would happen if, all of a sudden, you were unable to perform the daily functions made so convenient by today's technology?

Trust APC to provide you with end-to-end solutions ranging from surge protection to battery backup and mobile solutions. As a

thought-leader in innovation, APC strives to keep pace with the ever-changing demands of power – ensuring that your requirements are met.

Join the 15 million satisfied customers who rely on APC's Legendary Reliability™ to keep them up and running, no matter where they are.

Legendary Battery Backup Solutions

You depend on continuous power to keep your electronics running and connected. The problem? Power is very unreliable. Sags, surges, and outages can strike when you least expect, costing you time, money and data. With APC's comprehensive Back-UPS® series, you can work through power outages rather than work around them. APC Battery Backup products come with easy to use and install software that will save your files and gracefully shut down your system in the event of an extended outage*. That's legendary power protection you can count on.

Surge Plus Series

The Surge Plus Series offer reliable surge protection with additional battery backup for home PC and home entertainment equipment. All models feature surge protection for a single analogue telephone- or data- line and a £ 35,000 Equipment Protection Policy.

BE325

- 6 minutes of runtime (typical load)
- 4 outlets - 2 surge only, 2 battery backup
- Telephone / Fax / Modem and DSL line surge protection

ES Series

Back-UPS® ES series offers affordable battery backup ideal for home and home office use. All models feature safe system shutdown software, are MAC compatible, USB connectivity and a £ 50,000 Equipment Protection Policy.

BF350

- 12 minutes runtime (typical load)
- 5 outlets – 2 surge only, 3 battery backup
- Telephone / Fax / Modem and DSL line surge protection

BF500

- 18 minutes runtime (typical load)
- 5 outlets – 2 surge only, 3 battery backup
- Telephone / Fax / Modem and DSL line surge protection

* with execution of the BE325

RS Series

The Back-UPS® RS series provides power protection for high-performance office electronics. A slim design offers users more runtime in a smaller footprint. Automatic Voltage Regulation (AVR) corrects under-voltages without draining the battery. All models feature safe system shutdown software and a £75,000 Equipment Protection Policy.

BK650EI

- 30 minutes runtime (typical load)
- 4 outlets - 1 surge only, 3 battery backup
- Telephone line surge protection
- Automatic filesaving software

BR500I

- 12 minutes runtime (typical load)
- 4 outlets – 1 surge only, 3 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation

BR800I

- 15 minutes runtime (typical load)
- 6 outlets – 1 surge only, 3 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation

BR1000I

- 32 minutes runtime (typical load)
- 8 outlets – 2 surge only, 6 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation

BR1500I

- 45 minutes runtime (typical load)
- 8 outlets – 2 surge only, 6 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation

APC Equipment Protection Policy

APC offers a warranty on its consumer range of power protection products. The Equipment Protection Policy includes the following:

In case of damage through Surge, Spikes - including lightning on the connected equipment, APC agrees to replace the damaged products, repair them or compensate for the the market value.

This EPP and Data Recovery Policy is only valid in countries of the European Union

Award-Winning Surge Protection

When lightning strikes, be sure to keep your electronics out of harm's way. Safeguard them from harmful power sags, spikes, and surges with APC's line of surge protection products. APC's SurgeArrest® line is designed to protect your electronic devices from damage related to power events. Additional benefits specific to individual models include, telephone line and data line surge protection.

SurgeArrest® Essential

Lightning and power surges can permanently ruin your electronic equipment. Changes in voltage cause lockups and loss of work. APC SurgeArrest will protect equipment from the threat of bad power.

P1

- Direct "Plug In"
- <15% Let through voltage
- Fax/Phone(DSL Compatible) protection
- £ 35,000 equipment protection policy
- Protection Working and Building Wiring Fault LEDs
- Lifetime warranty

P5/P5T/P5BV

- Available with additional telephone or Coax protection
- 5 outlets with 1 transformer block spaced outlet
- <15% let through voltage
- Fax/Phone (DSL compatible) protection
- £ 35,000 equipment protection policy
- 1.8 m, 180° rotary power cord

SurgeArrest® Home/Office

The SurgeArrest Home/Office provides reliable quality protection of your electronic equipment.

PH6T3 - PH6VT3

- 6 power outlets with 2 transformer block spaced outlets
- <10% Let through voltage
- 2.4m, 180° rotary Power Cord
- Fax/Phone(DSL Compatible) splitter with surge protection
- Video/Coax protection
- £ 50,000 equipment protection policy

SurgeArrest® Performance

The SurgeArrest Performance series provides maximum protection for high performance multimedia computers and electronic equipment.

PF8VNT3

- 8 power outlets with 2 transformer block spaced outlets
- <10% Let through voltage
- 93kA Maximum Surge Current
- 2500 Joules / 3400 eP Joules
- 3m, 180° rotatable Power Cord
- Fax/Phone(DSL Compatible) splitter with surge protection:
- Video/Coax protection
- Ethernet protection
- Overload LED
- Resettable Circuit Breaker

TravelPower™

Now you can charge, organise and protect your mobile devices wherever you go! The TravelPower™ Case connects to a single airline, auto or standard AC power outlet to provide power to your mobile devices while you travel. This new power system helps reduce weight and cord clutter since bulky transformer blocks and power adapters are no longer necessary. For approximately the same cost as a DC/AC power inverter, you can have a complete mobile office! Designed for convenience and durability, the APC TravelPower Case is the ideal choice for any mobile professional.

TravelPower™ Case

Whether making your daily commute or travelling the world on business, charge your mobile devices in style with any one of the APC TravelPower™ Case models. The TravelPower Case comes in a variety of sizes, in either ballistic nylon or synthetic leather.

TPC1000SI

- Synthetic Leather
- Volume 16,3L

TPC1200SI

- Synthetic Leather
- Volume 19,6L

TPC1300BI

- Ballistic Nylon
- Volume 21,3L

TPC1500BI

- Ballistic Nylon
- Volume 24,6L

TPC1900PI

- TravelPower Backpack
- Volume 31,1L

TPC1800RI

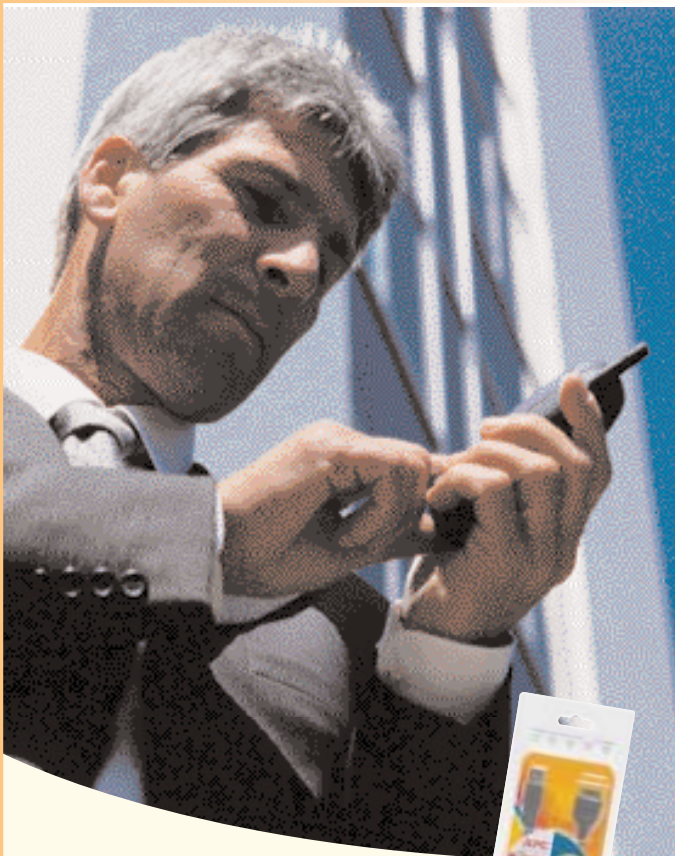

- Ballistic Nylon
- Room for two laptops
- Telescoping handle
- Wheels
- Volume 29,5L

All TravelPower™ Cases includes:

TPA90DCI

- 75 Watt output
- Car and airplane compatible
- international plug adapter kit
- USB port to recharge PDA and mobile telephone*
- APC USB charging cables have to be ordered separately
- Power anytime anywhere

Chargers and International Plug Adapters

How convenient are APC's mobile phone chargers? Just use them to connect and fully charge your mobile phone through any USB port. It's that simple!

APC USB Mobile Phone Chargers eliminate the need for bulky transformers or power adapters while you travel. That way you can spend more time communicating, and less time complaining about low batteries. Use APC USB Mobile Phone Chargers with your TravelPower™ Case to easily and conveniently ensure that your office-on-the-go remains fully charged!

International Plug Adapters

INPA2

- 2-prong attachment
- 4 international plug adapters
- Convenient carrying case
- Space-saving coiled cord
- Compatible with APC TravelPower™ Case

INPA3

- 3-prong attachment
- 4 international plug adapters
- Convenient carrying case
- Space-saving coiled cord

DC/AC Inverters

Even when you're travelling, you can enjoy the comforts of home. All models feature low voltage disconnect to prevent your vehicle battery from draining and status indicator LEDs to alert you of the unit's power status.

PNOTEAC75-EC

- Supplies 75 watts of continuous AC power
- Airplane and auto compatible
- low voltage disconnect
- status indicator

Mobile Surge Protectors

Reliable power protection for notebook computers, fax and answering machines. All APC Mobile Surge Protectors feature dataline, lightning and surge protection as well as status indicator LEDs.

PNoteProC6-EC

- Catastrophic event protection
- Excess current protection
- Multivoltage design
- 3-prong adapter

PNoteProC8-EC

- Catastrophic event protection
- Excess current protection
- Multivoltage design
- 2-prong adapter

DC/AC Inverters and Mobile Surge Protectors

Why should you sacrifice the comforts of home while on the go? With APC's full line of mobile power solutions, you won't have to! APC mobile products enable you to stay connected on the road or in the air, offer portable surge protection, and eliminate the need for additional "back up" batteries. Now you can power your notebooks, portable DVD and MP3 players, camcorders and other portable devices anytime, anywhere.

Travelling Accessories

Help you organise and simplify your mobile life.

WMR1000GI

- Mobile Wireless Router
- Compact lightweight and mobile Design
- Powered via the USB of the TravelPower or through separate Power Adapter
- Compatible with the APC TravelPower Case
- * Available in July

WCB2000GI

APC Wireless Cardbus 802.11G
* Available in July

TMOI

- Optical Travel Mouse with retractable cable
- USB Connector
- 2 feet cable
- less than 70g

RCEI

- Retractable Ethernet
- RJ45 Connectors

RCTI

- Retractable Telephone Cable
- RJ11 Connectors

RCTEI

- Retractable Telephone Cable
- RJ11 Connectors
- Retractable Network Cable
- RJ45 Connectors

PNOTEBXI

Emergency USB Charger for Nobile phones and PDAs
• Works with AAA Batteries

Mobile Accessories

Make your life easy. Why would you miss out on the comfort of a real optical mouse? Why would you want to take a clutter of cables with you while traveling? APC offers a range of products with retractable cords which will help you organise your "mobile Office".

Your fingerprint is now your Password

With APC's new Biometric Password Manager you will no longer need to write down your passwords. Simply place a finger on the Biometric Password Manager to gain access to your computer, databases and other online accounts. And since your fingerprints are unique to you, no other person can use it. What a great way to eliminate potential security risks, especially in these days of Internet shopping and banking!

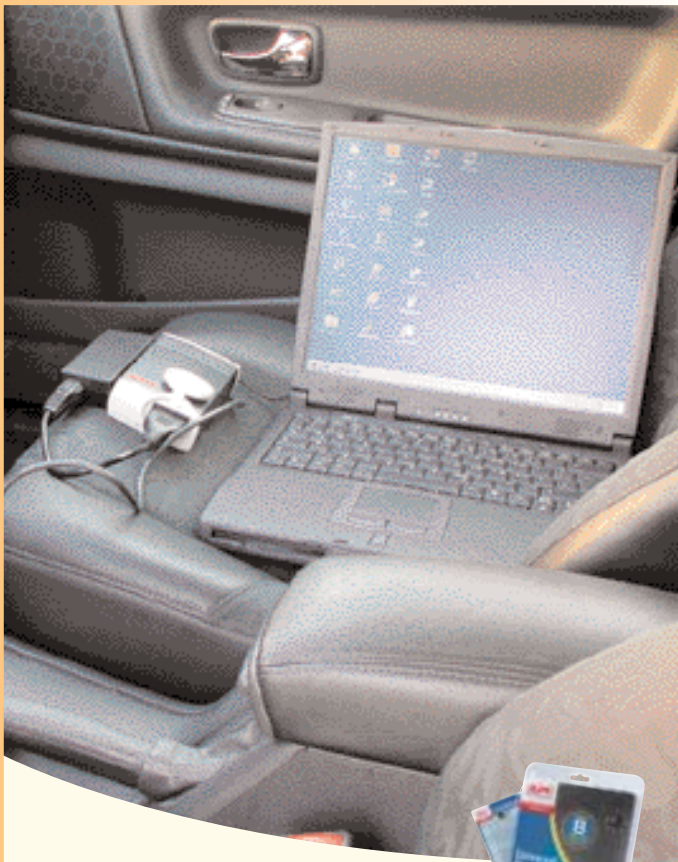

Biometric Password Manager

The APC Biometric Password Manager identifies the user with a leading-edge technology RF biometric fingerprint sensor that scans fingerprints below the surface of the skin to the live layer or true fingerprint, conditions. Thus you can be certain the Biometric Password Manager will always accurately identify your fingerprint for user authentication purposes.

- Eliminates the need to remember your passwords
- Eliminates sticky notes with passwords on them on the wall.
- Easy convenient way to store passwords
- Makes it harder for people to access your computer
- Fast user profile switching in windows xp
- Control user access to your computer
- Register up to 20 different users
- Unlimited number of passwords
- Two year warranty
- Free Software included

APC Universal Notebook Battery/TravelPower Adapter

The Right Choice for Portable Power
 APC's Universal Notebook Battery (UPB80) delivers lightweight, portable power for your notebook in a stabilized design. It's designed for universal compatibility with selectable output voltage (15v - 24v) and ships with all necessary tips. It packs a powerful punch in a small package, weighing less than 28 ounces (800g) and offering up to 8 hours of continuous power.

You Can't Go Wrong by Selecting APC's mobility products.

Universal Notebook Battery

APC's New Universal Notebook Battery is a slim and lightweight external battery pack which provides up to 8-hours of continuous runtime (actual runtimes may vary by notebook model and power setting).

UPB80I

- Compatibility for Most Notebooks
- All Tips included IBM, Dell, Apple, etc
- Selectable Output Voltage 15v – 24v !!!! APPLE too...
- Slim, Lightweight Design Weighs less than 800g (2lbs).
- Delivers up to 8 hours of extended runtime
- Universal Notebook battery fully recharges within 3 hours.
- No additional Powersupply needed
- Compatible with standard notebook Power supply and the APC Travelpower Adapter

TPA90DCI

- 75 Watt output
- Car and airplane compatible
- international plug adapter kit
- USB port to recharge PDA and mobile telephone*
- APC USB charging cables have to be ordered seperately
- Power anytime anywhere

APC Notebook Batteries

There are some things you just can't do without. Staying connected to the networked world is one of them. You send e-mails from your hotel, write presentations in airports and surf the net before breakfast. That's why you need a notebook computer battery or two that will keep you powered up wherever you go. APC offers portable computer batteries for the leading brands of notebook computers. APC Notebook Batteries are now available for certain Acer, Apple, Compaq, Dell, Fujitsu, Gateway, HP, IBM, Sony, and Toshiba Notebook models.
